

## Introducing our Contractor Partners, Milwaukee's own CG Schmidt & MESH Construction!

We are excited to be working with these two Milwaukee-based companies to bring you the new A-Wing. Together, they have vast experience in building luxury projects.

### Meet our Contractor, CG Schmidt

CG Schmidt is a family-owned Wisconsin construction firm founded in 1920, when Dutch immigrant Charles Schmidt left his job at a Milwaukee brewery to establish Charles Schmidt & Sons Construction—later incorporated as CG Schmidt, Inc. in 1946. Four generations of family leadership later (with the fifth preparing to continue the legacy), we've grown into one of Wisconsin's most respected construction managers, consistently ranked among the top firms both statewide and nationally.

With offices in Milwaukee, Madison, and Tempe, our reputation is built on delivering quality projects that stand the test of time.

## Meet our Construction Manager, MESH Construction

Our story began in 2024, when co-founders Humberto Sanchez and Michael Emem launched MESH Construction with a vision to build stronger communities in Milwaukee. Drawing on more than four decades of combined industry experience, we set out to create a construction firm that blends professional excellence with local impact.

While young, MESH is rooted in timeless values: **quality**, **innovation**, and **community engagement**. By sourcing subcontractors from the neighborhoods where we build, we create jobs, strengthen local economies, and ensure that each project leaves a lasting, positive mark.

Our mission is clear: to deliver exceptional, energy-efficient projects that meet client needs while elevating the communities we serve.
